CERTIFIED MAIL - RETURN RECEIPT REQUESTED

July 22, 1992

Mr. David Aggerholm
Port of Seattle
P.O. Box 1209
Seattle, WA 98111

Dear Mr. Aggerholm:

Re: Issuance of the RCRA Final Facility Permit for the
Burlington Environmental Inc. Pier 91 facility

Please find enclosed the Final Facility Permit for the Burlington Environmental Pier 91 facility. As Attachments LL and MM to the Permit were not a part of the Permit Application submitted by Burlington Environmental, these attachments are enclosed as well. This Permit will be effective as of August 26, 1992 unless there is an appeal filed with the Pollution Control Hearings Board under WAC 173-303-845. If an appeal is filed, the effective date of the appealed permit condition(s) may be stayed.

Also enclosed is a summary report of public comments received on the Draft Permit and Ecology's responses to those comments. As no comments were received on the tentative decision to accept the Demonstration of Compliance with the Siting Criteria, Ecology has made a final decision to accept the Demonstration. No comments were received on the Draft Determination of Non-Significance (DNS) either. Consequently, the DNS is final, effective June 11, 1992.
